SKILLS

- **Languages**: C++, JavaScript, C, Python, Java
- **Frameworks**: HTML and CSS
- **Databases**: MySQL, MongoDB
- **Tools/Platforms**: Git, GitHub, Figma, AWS Cloud Services, Docker, Ubuntu
- **Soft Skills**: Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

- **Learner's Hub**| GitHub — Jan' 26 – Feb' 26
  - Developed a scalable web-based Learning Management System (LMS) enabling user registration, course enrollment, quiz attempts, and progress tracking.
  - Implemented secure user authentication and optimized database operations for efficient course and user data management.
  - Designed a responsive and interactive dashboard with real-time progress visualization, improving user engagement and usability.
  - **Tech**: Python (Flask), SQLite, HTML, CSS, JavaScript, Chart.js.

- **JEEVANsetu**| GitHub — Jan' 26 - Mar' 26
  - Developed a real-time hospital resource management platform to monitor bed availability and streamline patient coordination.
  - Built RESTful APIs to handle patient records, resource allocation, and dynamic data updates, ensuring efficient system performance.
  - Designed a responsive frontend interface with real-time updates to enhance usability and improve operational efficiency.
  - **Tech**: Node.js, Express.js, MongoDB, HTML, CSS, JavaScript.

TRAINING

Lovely Professional University – Summer Training | Training certificate — Jun' 25 – Jul' 25

- Completed hands-on training focused on Object-Oriented Programming (OOP) concepts using C++.
- Gained practical experience in writing modular, reusable, and efficient code by applying core principles such as classes, objects, inheritance, polymorphism, encapsulation, and abstraction.
- Worked on implementing real-world problem-solving programs and practiced debugging, and STL usage in C++.
- **Tech stacks used:** C++, OOPs Concepts, Classes & Objects, Inheritance, Polymorphism, Encapsulation, Abstraction, File Handling, Standard Template Library.

CERTIFICATES

- Oracle Data Platform 2025 Certified Foundations Associate. Oracle — Apr' 26
- Cloud Computing Essentials with Azure Management. Coursera — Feb' 26
- AWS Cloud Architecting. AWS Academy — Jan' 26

ACHIEVEMENTS

- **Finalist of Udyamitsav:** — Feb' 26
  Achieved Top 5 position among 50 plus teams

- **Finalist of CipherThon 2.0:** — Feb' 24
  Secured among 5000 plus participants

EDUCATION

- **Lovely Professional University** — Phagwara, Punjab
  Bachelor of Technology - Computer Science and Engineering; ***CGPA: 8.0*** — *Aug'23 - Present*
- **Jammu Sanskriti School** — Hatli Morh, Kathua
  Intermediate (PCM); ***Percentage: 84*** — *Apr'21 – Mar'23*
- **Jammu Sanskriti School** — Hatli Morh, Kathua
  Matriculation; ***Percentage: 94*** — *Apr'19 – Mar'21*
